

## CHAPTER PROVIDES STEAM SUPPORT

The Chapter was able to financially assist in transportation expenses for a field trip to Rock Island Arsenal (RIA) by students from Rock Island Center for Math and Science. The field trip was part of the school's overall STEAM (Science, Technology, Engineering, the Arts, and Math) focus. Kindergarten through Sixth Grade participated with each grade having a specific location to visit, ranging from the RIA Fire Station to Data Center Operations as well as Satellite Communications.
