

# AGENDA

More details to come on our 2022 agenda but here are a few topics to get you started on your plans to attend.

- **MULTI DOMAIN OPERATIONS DOCTRINE** - What does it mean to our future and lessons learned from Ukraine?
- **ORGANIC INDUSTRIAL BASE/SUPPLY CHAINS** – What efforts are on-going to identify and successfully mitigate foreign dependencies? What are current sector concerns and opportunities? What initiatives are being pursued to improve the domestic industrial base and workforce? Navigating supply chain issues and managing evolving electronic technology.
- **BEST PRACTICES IN CONTRACTING** – Is there a shift in Small Business goals and what does it mean? Challenges in the new dynamics of Teleworking? What are emerging contracting opportunities?
- **ARMY NETWORK ENTERPRISE TECHNOLOGY** - What's the latest in networking communications and their effect on warfighting capabilities? What's the latest in Satellite Comms? Cyber security/BYOD to work? CMMC?
- **PREDICTIVE LOGISTICS** – How can we improve readiness with vehicle sensors? Better predictive analytics? What is the way ahead and opportunities offered?
